

Wetech DC681USB

Programming Station for SEPURA radios STP8000 and STP9000.

General Description

The programming station offers to program parallel up to 6 radios with your programming software.

As soon as a radio is inserted into a charging slot, it is automatically recognized by the software and can be programmed.

In addition to programming, the standard functions of Fast Charge and Trickle Charge are given.

As usual is the active function displayed by the two LED on the Charging Slot.

The Programming station can be connected by USB connection to PC.
